Work Experience

Empresas Digitales | Lead Full Stack Dev | <https://joswald123.github.io/Empresas-Digitales/> | March 2020 to present
Revamp of Colombian based company main website. Collaborated with Colombian based team on Designing and developing the new website.

- Incorporated a user-friendly view to show a more modern company image and a detailed and animated list of all the services it offers using Jquery, JavaScript, Bootstrap and the font and icon library.

Rugby football team | Lead Full Stack Dev | <https://github.com/joswald123/ATL-Website> | Oct 2019 to March 2020
Rebuild of the local Georgia team's website with a new user friendly design using React.js and Bootstrap.

- Crafted extra validations for admin users to have CRUD functionality on events, matches, and roster team info.
 - Uncovered, tracked down, and resolved bugs in the functionality based logic of the website.
 - Incorporated the logic of the paypal payment button to receive donations and payments for the team.
-

Projects

Google search books app | Lead FullStack web | <https://google-books-search-myapp.herokuapp.com/>
MERN-Stack App created with React components, works with helper/util functions, and utilizes React lifecycle methods to query and display books based on user searches. Uses MongoDB so that users can save books to review or purchase later.

- Tools used: Node.JS, Express, MongoDB, HTML5, CSS, Bootstrap, Javascript, React.js, Google API.

Miss-Translations | Lead Back-End | <https://github.com/toomusa/Miss-Translations>

Through a translation API and dictionary, created an application that offers users funny mistranslations of their inputs.

- Collaborating with a team of four we created an application with a translation API that combined with a dictionary API, the app then manipulated the final translation of the user by changing the meaning of the initial phrase to be translated.
 - Supported with the integration and operation in JavaScript of the API's to send a response to the user.
-

Additional Work Experience

Accounts Receivable for East Bay Restaurant Supply | Jan 2019 to July 2019

- Managed an excellent time in payments post and PO's approval, keeping collection of payments up to date and summarizing approval times in the commercial department.

Accounts Receivable for Delphon Industries | July 2018 to December 2018

- Generated time savings by focusing debt service, by age and value, producing profitability and evolution in the company's collections.

Accounts Receivable for PayU Colombia - Bogotá, Colombia - Jan 2013 to Feb 2015

- Modernized the aged receivables process and reports: Reduced the time between functions to 50 percent faster than before.
-
